

Mike
Williams
IT Litigation Specialist

mwilliams@shertremonte.com

Mike works closely with the firm's legal teams and clients by managing the technical aspects of case analysis and fact development.

Mike provides IT expertise in connection with document collection, review, and production over the course of disputes and investigations. Mike also advises legal teams and clients concerning the use of litigation support software and systems, including artificial intelligence applications.

Mike previously worked as a system engineer at Simplegrid Technology, which was ranked among the top 100 managed service providers.
